About Us

IIT Mandi Catalyst was launched in 2016 by IIT Mandi as Himachal Pradesh's first Technology Business Incubator (TBI). It offers a low-cost, tranquil, and high-tech venue for early-stage entrepreneurs which is away from the hustle and bustle of a fast-paced life, pollution, excessively long commutes, and other big-city complexities.

Catalyst is strongly backed by the Central Government and State Government and strives to incubate technology-based start-ups focused on economic and social impacts. The incubation program at Catalyst caters to startups at all stages of their early life cycle, including ideation, prototyping and product development. Through its high-touch incubation program, Catalyst has so far supported over 600+ startups and funded over 300+ startups through several funding schemes.

Vision

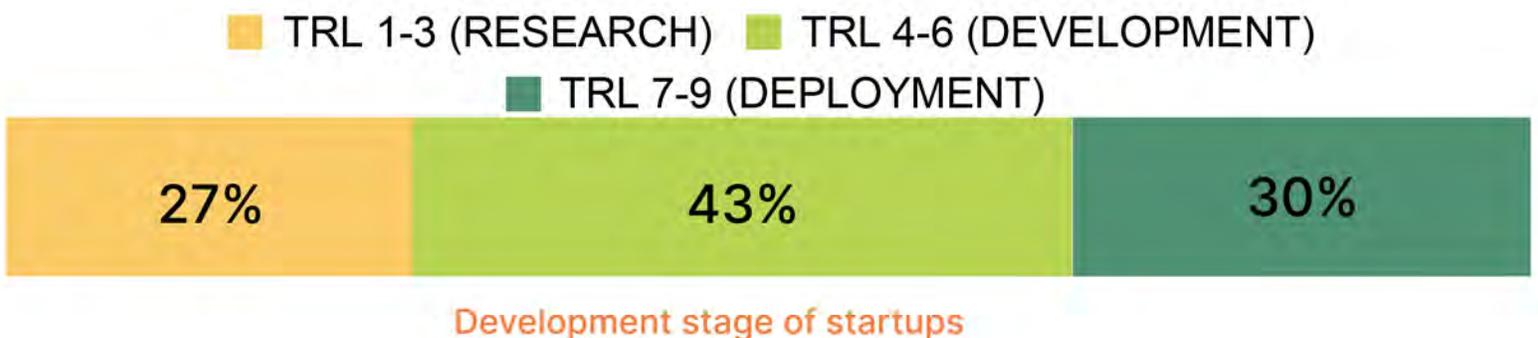

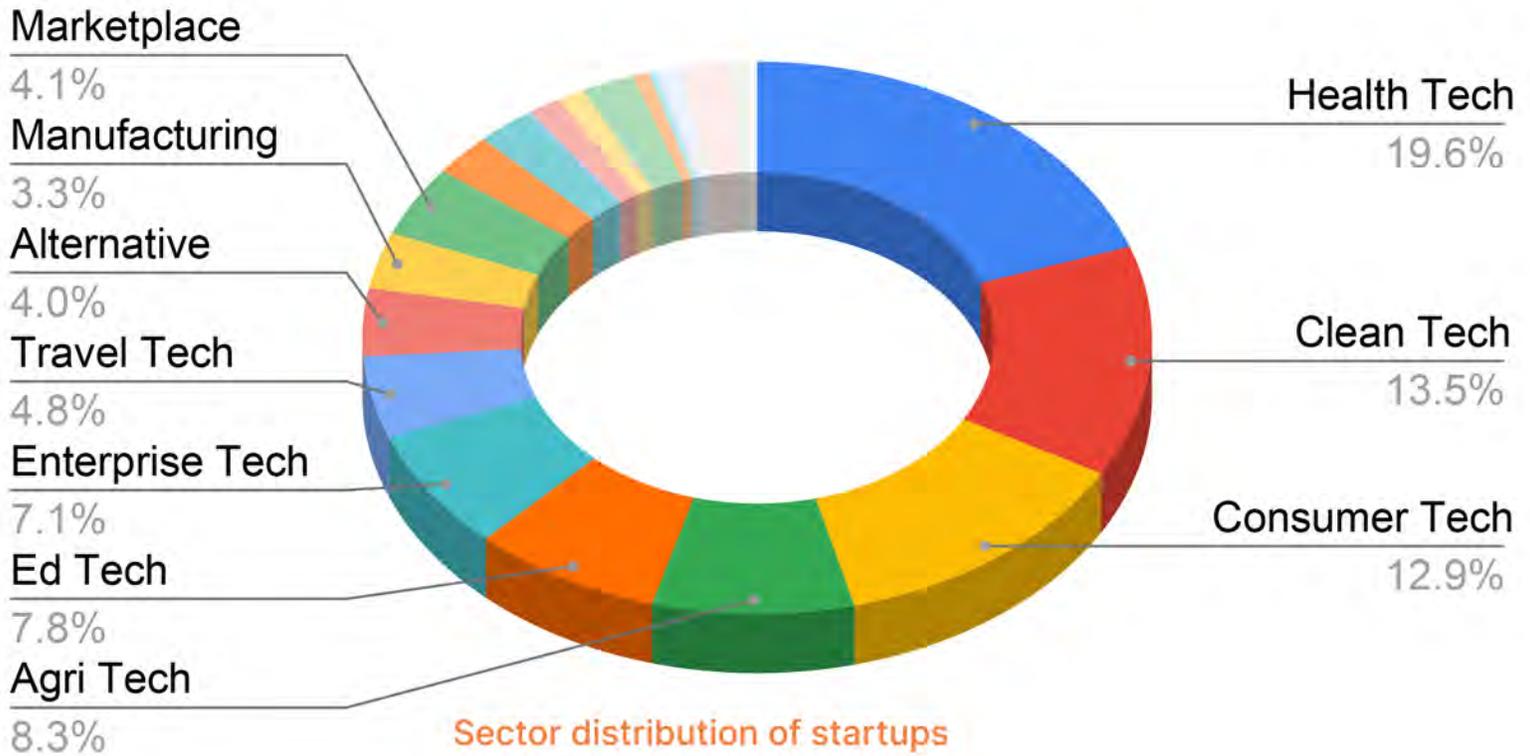

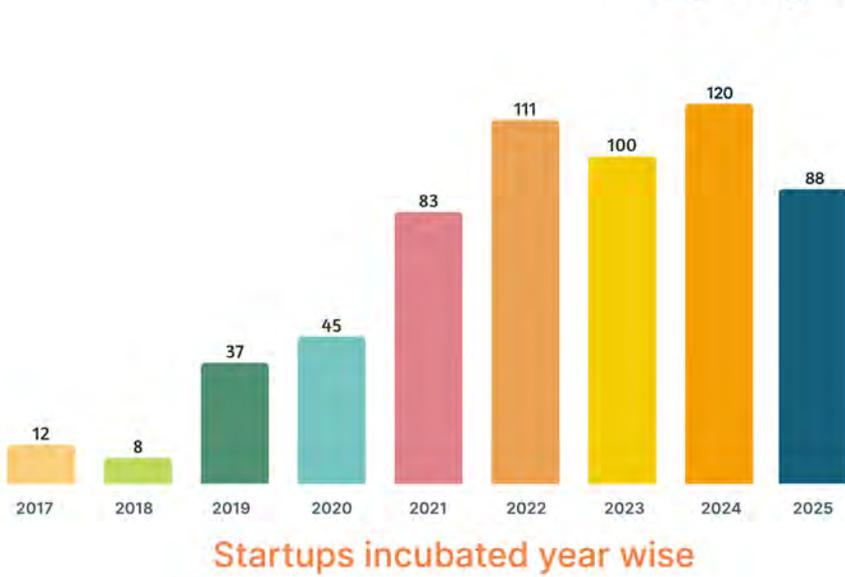

IIT Mandi Catalyst has a vision to create a sustainable startup valley in Kamand that will attract high-tech startups from across the country. Towards this, IIT Mandi has committed physical, intellectual and financial resources to develop a blueprint for a unique startup destination for Indian startups. IIT Mandi Catalyst is committed to creating hard and soft infrastructure and enabling conditions in Kamand valley that will be technically world class and culturally Himalayan.

Thematic Areas

Catalyst, focused on discovering and supporting cutting-edge technology-driven startup solutions within four thematic areas.

Highlights

Funding Schemes

Idea to Prototype

Upto INR 4 L

Nidhi-EIR Program (24)
Tide 2.0 EIR Program (8)
CPS-EIR Program (3)
HPCED Sustenance Allowance (42)

Prototype Development

Upto INR 10 L

IIT Mandi (66)
Nidhi-Prayas Program (71)
Tide 2.0 Grant Program (12)
CPS-Prayas Program (56)
AICTE (1)
ASIIM (2)
SISF Grant (11)

Deployment

Upto INR 25-50L

Nidhi Seed Support System (10)
CPS-Seed Support System (11)
SISF Seed (16)
Him Startup Yojana (11)
CPS-Accelerator Program (5)
IIT Mandi (3)
HDFC (4)
Tide Scale up Grant (2)

(27)

(75)

(105)

(53)

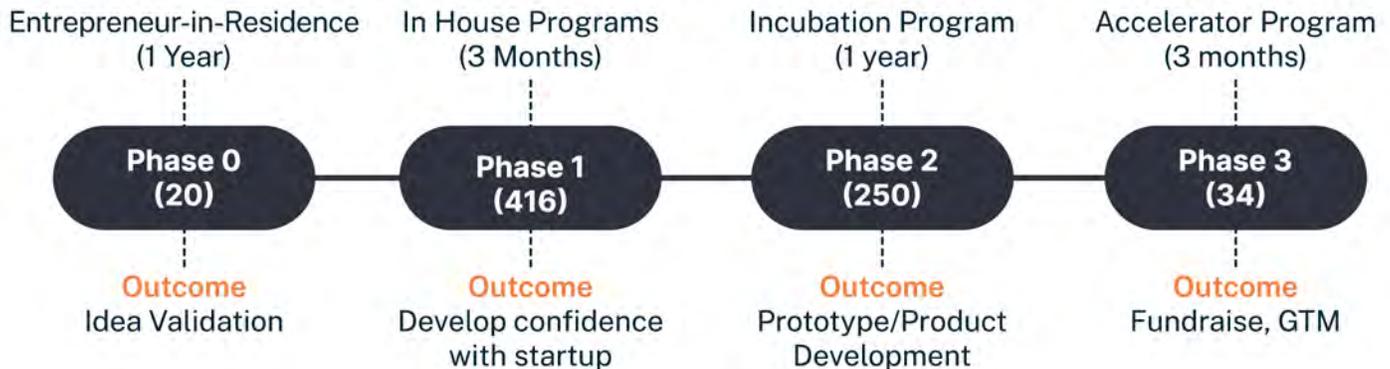

(20)

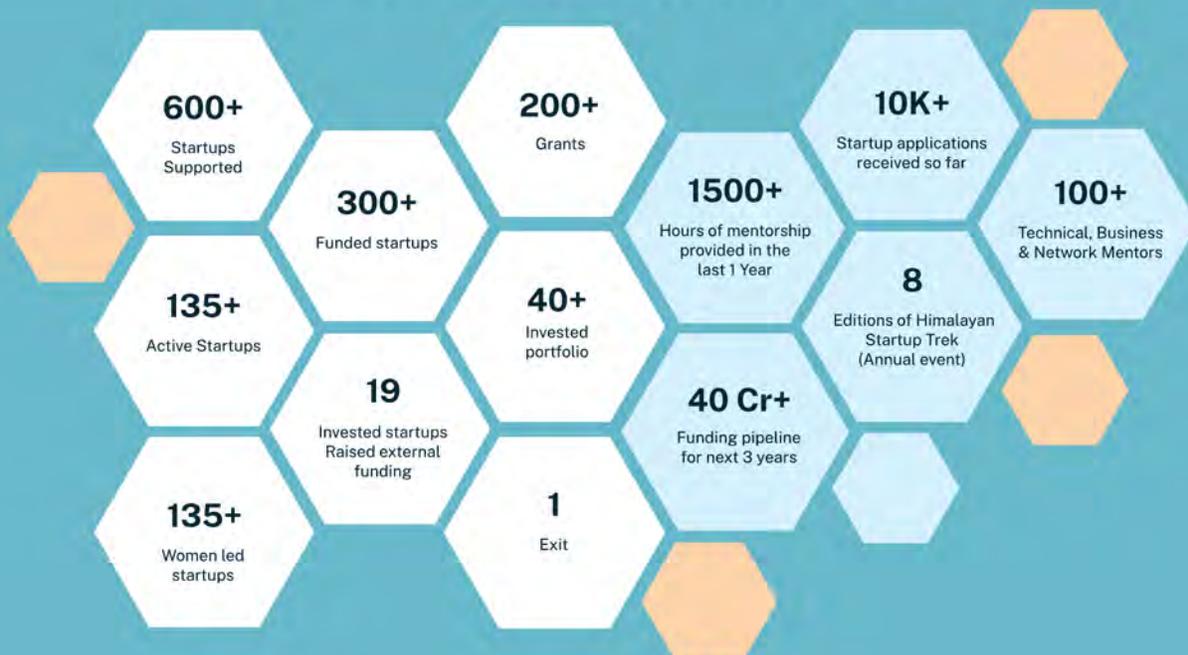

(69)

Note: Number in parenthesis represent number of startups funded/upcoming under a program/agency

Incubation Program Structure

Incubation Highlights

Mentors & Network

Infrastructure

DST Prayashala

Catalyst houses a fabrication lab developed under the Nidhi Prayas scheme, an initiative by Department of Science & Technology. This lab offers a rapid prototyping platform for innovators to convert their product ideas into actual products. It offers state-of-the-art machines, such as 3D printer, CNC, laser cutters, and other electronics and software tools.

Startup Cowork Space

Catalyst maintains a coworking space at the IIT Mandi campus with a capacity of 80 seats in addition to meeting rooms and conference hall.
